

## Battery powered X-Ray tables AGA-AKKU-POWER-LIFT and AGA-AKKU-POWER-DUO-LIFT

The X-ray tables AGA-POWER-LIFT (with electric height adjustment) and AGA-POWER-DUO-LIFT (with electric height and tilt adjustments) have been specially developed for use in the field of radiology. The absence of a longitudinal brace at the front of the leg frame makes the use of a C-arm easily possible.

These two X-ray tables are now available in a battery powered version. The new X-ray table models presented below, AGA-AKKU-POWER-LIFT (with height adjustment) and AGA-AKKU-POWER-DUO-LIFT (height and tilt adjustments) are equipped with rechargeable batteries for greater versatility of use.

The complete product descriptions with additional features, as well as the available options and accessories may be found in our new catalogue (issue 42) on pages 24-27.

1 RGL-1065/NAC, PAL-190-65, LR/Z-125 (H : 620-1020 mm)

2 RGL-1065/NAC, LR/Z-125 (H : 620-1020 mm)
