

Cardiology Tilt Tables

The vein treatment tables have been redesigned specifically for the tilt table test, a medical examination method whereby the blood pressure of patients is evaluated according to changes in position. These cardiology tilt tables are available in two versions, **without echo-cutout** (Article No. KT-1062/E and KT-1060/EE) and **with echo-cutout** (Article No. EKAT-1062/E and EKAT-1060/EE).

The complete product descriptions with additional features, as well as the available options and accessories may be found in our current catalogue (issue 42) on pages 38, 40-41 and on our website www.agasan.com.

1 EKAT-1060/EE, LR/Z-50

2 KT-1060/EE, LR/Z-50, WM-30
